SERVICES CAPABILITIES

A LEADING **"RENEWABLE ENERGY GROUP"**

Group Profile

Services Capability
"Key Strengths"

KEY DRIVERS	RATIONALE
Project Development (BOO/BOT) **Renewable energy**	**Project development & BOT (>US$500Mn)** Green Hydrogen & Ammonia project Methanol / Bio-fuels / SAF Waste oil refineries Flare Gas to Power PV Solar and BESS etc
FEED & LSTK EPC Capabilities	Past Experience **(>US$200Mn)** Strategic Engineering Partner JV/Consortium (options)
Technological Projects / Performance Guarantees	**Undertake Single Point EPC responsibility** Experience involving licensors packages Back-to-Back Performance Guarantees
Global Procurement – Cost Effective	**Past Experience (>US$150Mn)** Cost-effective procurement - optimize CAPEX 15-20% reduction
MEA Market – experience, local content / CSR	Proven Track record in executing projects in **UAE, KSA, Oman, Iraq, South Africa, Nigeria, Ghana, Zambia, Angola etc.**
Qualified Resources	Access to expert & qualified resources **(Recent peak >2,500)**
QHSE	Established Standards & Systems **(Recent 25Mn Man-hours with LTI)**
Financials Strengths / Commercial Terms	Banking/BGs/Bonds/WC/Project Financing etc As per FIDIC & other international practices

Services Capability
Technology Associations

Over 50 different technologies from **EU, UK, US, Canada, China and India are engaged / evaluated covering these areas;**

- Carbon Capture, Storage & Utilization (CCUS/BECCUS)
- Green Fuel Technology - Hydrogen, Ammonia, SAF
- Flare – Flue Gas Mitigation
- Sulphur recovery / desulfurization
- Heavy oil upgradation
- Virtual LNG Pipeline solution
- Power & Water solutions
- Biofuel / E-Fuel- Bio-CNG, Ethanol, Methanol etc
- Waste to value (W2V) - Used Oil, MSW, Agri, Plastics
- PV Solar (Floating), BESS, EC, FCEV, Energy solutions
- Produce Water, Sludge Treatment, Heavy Oil

PROJECT DEVELOPMENT

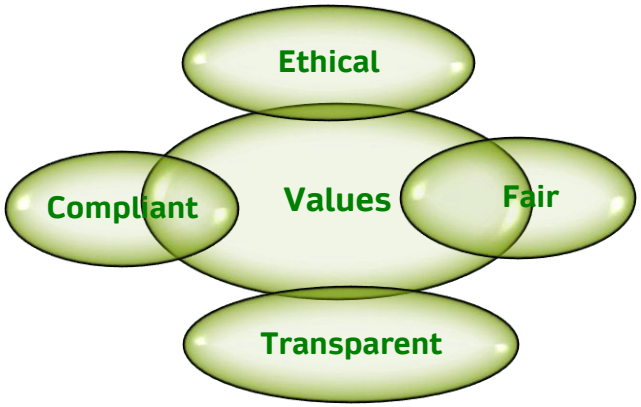
A LEADING **"RENEWABLE ENERGY GROUP"**

Group Profile

Project Development
"One-Stop-Solution"

Unique "One-Stop-Solution"

- **Project Feasibility & Consulting** - Techno-commercial
- **Project Development -** BOO, BOT & PPP
- **Business Development -** Projects, Products & Services
- **Technology** - Evaluation, Selection, Marketing & Commercialization
- **Commercial Structuring** - SPVs, JVs, Shareholding
- **Project Financing (CAPEX/OPEX) -** Equity/Debt (Green Funding, Carbon Credits, FID)
- **Contracting & Supply Chain** – FEED, EPC, Construction, Manufacturing & Fabrication, O&M and Supplies
- Approvals, Permitting, Leasing & Licensing



Project Development
"Value Proposition"

Partner with lead developer to expedite FID - Reduce Pre-FID Cost and Time

Lead Developer

- Concept
- Land
- Permits/ Approvals
- Lenders Equity/Debt
- Feedstock/ Offtake

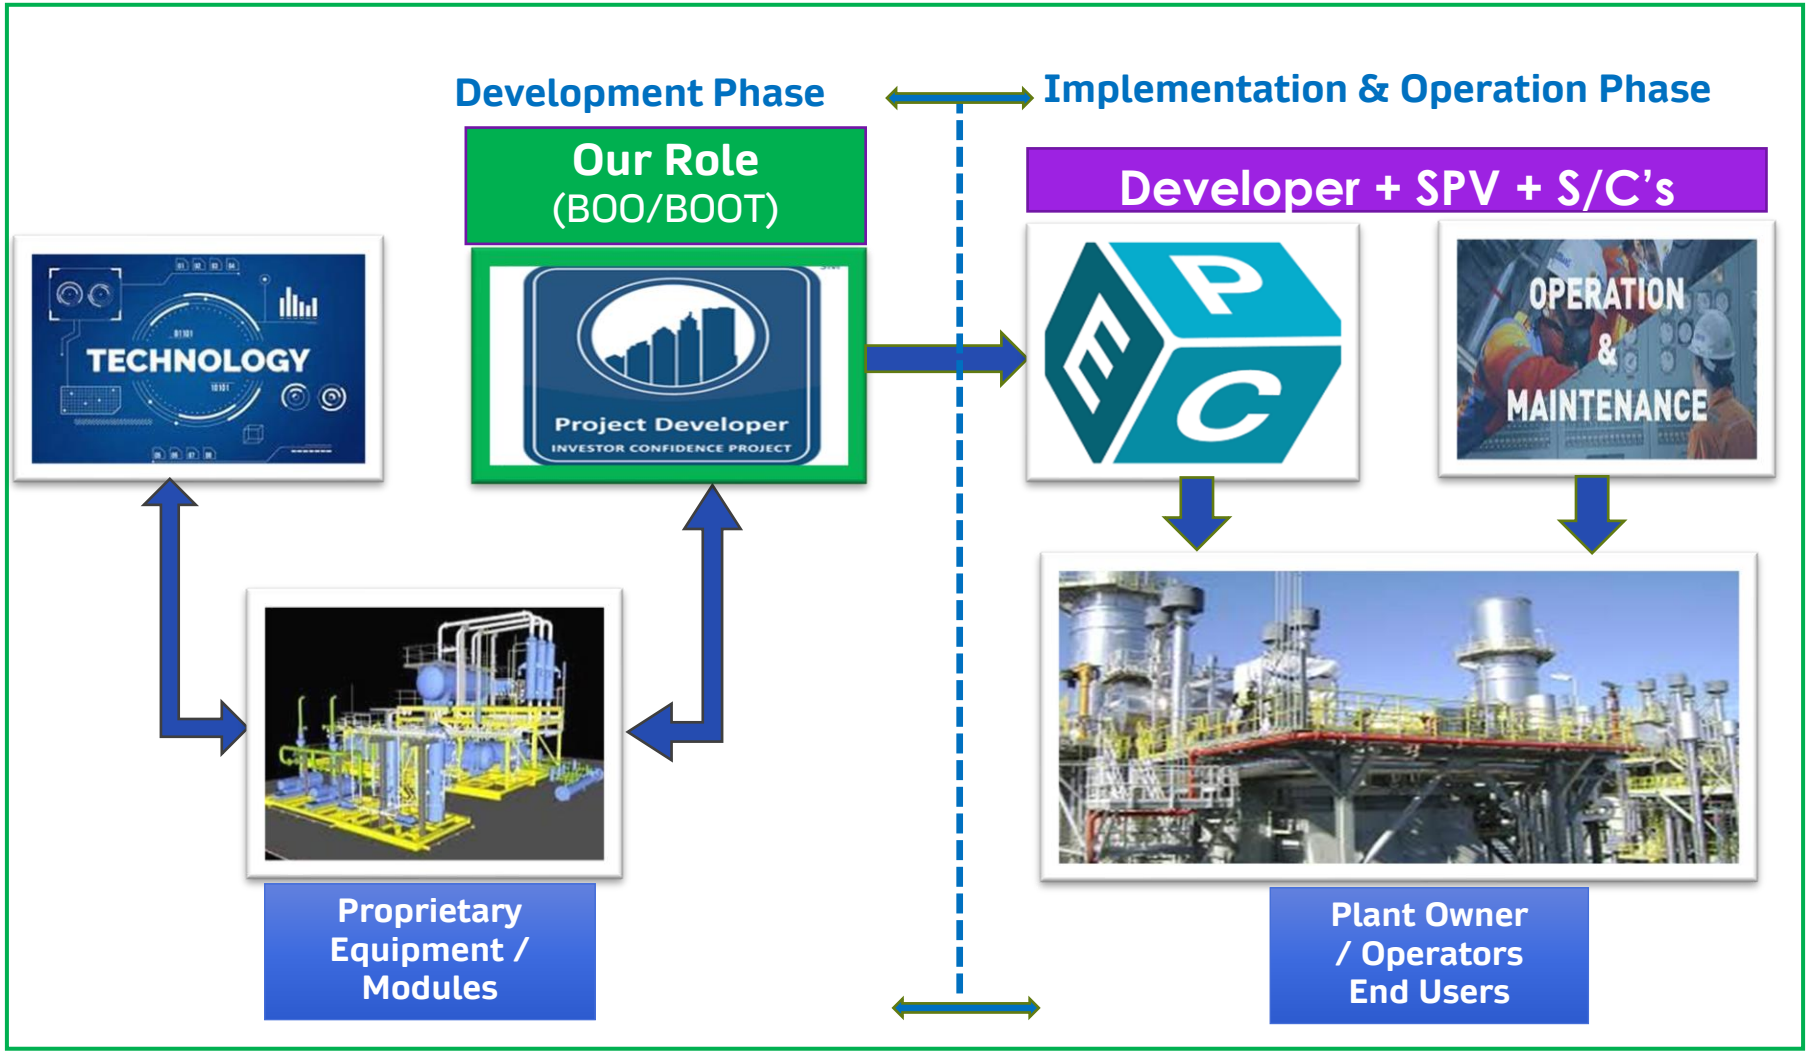
+

CHEMIE-TECH AS CO-DEVELOPER (VALUE PROPOSITION)

- Expedite FID & Offtake Agreement
- Technology Selection & Early FEED
- Commercial Structuring (SPV/JV etc)
- LSTK EPC & Single Point Responsibility
- CAPEX/ OPEX Optimization

Project Development
Stakeholder Engagement

We leverage our presence in "**MEA ,EU & India**" and engage with **"Technologies & Partners"** and **"Lead Developers"** in successful implementation of the projects as below:



Project Development
Commercial Structure

BOT/PPA/PPP via **"Public-Privately-Partnership (PPP) Model"** under a **Special Project Vehicle Companies (SPV's)**

Group Profile

Track Record
Project Development / Renewable Energy

CAPEX up to US$1.0Bn

Green Energy
(GH2,NH3,SAF, Solar)

- Green H2 & NH3 Projects
  UAE, Africa & US
- SAF & E-Methanol Projects
  UAE, KSA & India
- PV Solar Project in
  UAE/MEA

Waste to Energy
(ULO/Bio-Fuels/Flare)

- ULO Plants (2Nos)
  KSA
- ULO Plants
  UAE & Romania
- Flare Gas, Oman & Iraq
  Bio-CNG in India
  CCU/S UAE

E&P and Others
(Blocks/Concessions)

- Oil & Gas blocks
  India
- Oil Terminal & Fab. Yard
  UAE
- Goldmine
  Ghana

RATIONALES TO COLLABORATE

A LEADING **"RENEWABLE ENERGY GROUP"**

Group Profile

Rationales to Collaborate

- ✓ **Chemie-Tech and its associates** are keen to partner with Developers/End-Users to jointly realise the upcoming renewable energy projects
- ✓ Leverage ongoing experience in **Green H2, NH3, SAF, E-Methanol Projects in MEA, US region**
- ✓ Alignment with well-known and proven technologies (ISBLs/OEMs)
- ✓ Ready to support on CAPEX/OPEX optimization, enhance project viability
- ✓ Reduced pre-FID cost and time, thus expedite FID
- ✓ Deploy experience team for different phases of the project **"FEED – Open Book Cost Estimation (OBCE) – LSTK EPC"**
- ✓ Strategic alliance with medium to large size Solar companies to provide any support required for PV Solar Scope of Work
- ✓ Assist is securing offtake agreements/project financing

Ready to collaborate to Jointly Develop & Implement
